

STEEL_{FOR} PACKAGING

Steel barrier

Steel packaging protects its content from the environment and vice versa

STEEL_{FOR} PACKAGING

Safety

- Steel packaging offers **100% barrier** 100% barrier protection against light, water and air.
- Steel is, by design, the most **tamper-evident** of all packaging materials
- Steel packaging **protects the environment** from aggressive substances such as solvents and gases
- Steel packaging offers consumers a **secure solution** for volatile products

STEEL_{FOR} PACKAGING

Product integrity & quality

Steel packaging offers 100% barrier protection against light, water and air.

- Steel is **impermeable** to light, gases and liquids
- The properties of steel ensure **product quality** and **trusted brand performance**
- Products packed in steel **resist** severe transport or storage conditions
- Products packed in steel stay **fresh for longer** even at ambient or high temperatures

STEEL_{FOR} PACKAGING

Tamper-evident

Steel is the most tamper-evident packaging material.

- Steel packaging ensures product quality throughout the products shelf life
- Steel offers an unsurpassed measure of safety for the consumer
- Steel packaging offers brand integrity, so brand owners can deliver their product in the most reliable way

STEEL_{FOR} PACKAGING

Containment

Steel packaging protects the environment from aggressive substances such as solvents and gases.

- Steel packaging provides the **best solution** for potentially hazardous goods
- Steel is **impermeable** and **solvent-resistant**
- Steel **complies fully** with national and local regulations on hazardous goods

STEEL_{FOR} PACKAGING

Secure solution for volatile (flammable) products

Steel packaging offers consumers a secure solution for volatile products.

- Steel packaging does not burn as quickly as other packaging materials.
- Steel is therefore the most appropriate solution for containment of paints, solvents and other flammable and combustible products.
- Steel packaging offers fire resistance for extended periods of time.
